

# Advance CSS Selectors

# CSS rule sets that select by element type, id and class

## All elements

```
* { margin: .5em 1em; }
```

## Elements by type

```
main {  
    border: 2px solid black;  
    padding: 1em; }  
h1 { font-family: Arial, sans-serif; }  
p { margin-left: 3em; }
```

## One element by ID

```
#copyright { font-size: 80%; }
```

## Elements by class

```
.blue { color: blue; }  
.right { text-align: right; }
```

---

# Relational Selectors

# CSS rule sets with relational selectors

## Descendant

```
main li { font-size: 90%; }  
ul a { color: green; }
```

## Adjacent sibling

```
h2+p { margin-top: .5em; }
```

## Child

```
main>p { font-size: 80%; }  
li>a { color: green; }
```

## General sibling (a new feature of CSS3)

```
h2~p { margin-left: 2em; }
```
